Doctor's Painless Pledge

I pledge to dedicate myself to using the best techniques and technologies in my possession to Painlessly perform your dental treatment where ever possible.

Welcome to the world of Painless Dentistry. Painless Dentistry by definition is delivering an injection in such a manner that it reduces or eliminates pain. The method in which dental procedures are performed should reduce both anxiety and pain during and after treatment. While not every procedure can be painless our office is dedicated to providing Painless Dentistry to the best of our abilities through proven techniques and available technology to reduce pain for the majority of dental procedures.

Many people interpret pressure or vibration as pain, this is a common misconception. Your dental team will explain what you can expect both during and after your dental procedure to help relieve any stress or anxiety in regard to your treatment.

This form is presented to every patient that Dr. Stucki sees to insure that they understand his commitment to providing treatment in an environment that is as Painless as possible. Each patient is encouraged to confer with the doctor or a team member to gain a more thorough understanding of each procedure before it is performed.

The American Academy of Painless Dentistry has collected documentation that Dr. Stucki has been able to perform Painless Dentistry for other patients. We trust he will be able to provide you with a similar experience.

We encourage you to let us know of your Painless experience by sending us a letter or an e-mail to the American Academy of Painless Dentistry to help us further document his Painless performance.
